LIST OF CONTENTS

VOLUME 40 NUMBER 1

J. M. Crook, U. T. Eysel and H. F. Machemer	Influence of GABA-induced remote inactivation on the orientation tuning of cells in area 18 of feline visual cortex: a comparison with area 17	1
P. C. Murphy and **A. M. Sillito**	Cholinergic enhancement of direction selectivity in the visual cortex of the cat	13
W. A. A. Kunze, A. D. Shafton, R. E. Kemm and **J. S. McKenzie**	Effect of stimulating the nucleus of the horizontal limb of the diagonal band on single unit activity in the olfactory bulb	21
K. A. Awan and **J. O. Dolly**	K^+ channel sub-types in rat brain: characteristic locations revealed using β-bungarotoxin, α- and δ-dendrotoxins	29
M. Warembourg and **P. Poulain**	Presence of estrogen receptor immunoreactivity in the oxytocin-containing magnocellular neurons projecting to the neurohypophysis in the guinea-pig	41
J. D. Mikkelsen, P. J. Larsen, M. M. T. O'Hare and **S. J. Wiegand**	Gastrin releasing peptide in the rat suprachiasmatic nucleus: an immunohistochemical, chromatographic and radioimmunological study	55
A. Merighi, J. M. Polak and **D. T. Theodosis**	Ultrastructural visualization of glutamate and aspartate immunoreactivities in the rat dorsal horn, with special reference to the co-localization of glutamate, substance P and calcitonin-gene related peptide	67
M. Allard, D. T. Theodosis, P. Rousselot, M. C. Lombard and **G. Simonnet**	Characterization and localization of a putative morphine-modulating peptide, FLFQPQRFamide, in the rat spinal cord: biochemical and immunocytochemical studies	81
J. M. Kerns, A. J. Fakhouri, H. P. Weinrib and **J. A. Freeman**	Electrical stimulation of nerve regeneration in the rat: the early effects evaluated by a vibrating probe and electron microscopy	93
L. J. Fisher, S. J. Young, J. M. Tepper, P. M. Groves and **F. H. Gage**	Electrophysiological characteristics of cells within mesencephalon suspension grafts	109
L. Rioux, D. P. Gaudin, L. K. Bui, L. Grégoire, T. DiPaolo and **P. J. Bédard**	Correlation of functional recovery after a 6-hydroxydopamine lesion with survival of grafted fetal neurons and release of dopamine in the striatum of the rat	123
M. Herkenham, M. D. Little, K. Bankiewicz, S.-c. Yang, S. P. Markey and **J. N. Johannessen**	Selective retention of MPP^+ within the monoaminergic systems of the primate brain following MPTP administration: an *in vivo* autoradiographic study	133
M. T. Vilaró, K.-H. Wiederhold, J. M. Palacios and **G. Mengod**	Muscarinic cholinergic receptors in the rat caudate–putamen and olfactory tubercle belong predominantly to the m4 class: *in situ* hybridization and receptor autoradiography evidence	159
C. F. Coop and **N. McNaughton**	Buspirone affects hippocampal rhythmical slow activity through serotonin$_{1A}$ rather than dopamine D_2 receptors	169

C. Baldwin, C. A. Sasek and R. E. Zigmond	Evidence that some preganglionic sympathetic neurons in the rat contain vasoactive intestinal peptide- or peptide histidine isoleucine amide-like immunoreactivities	175
T. J. Coderre, A. K. Chan, C. Helms, A. I. Basbaum and J. D. Levine	Increasing sympathetic nerve terminal-dependent plasma extravasation correlates with decreased arthritic joint injury in rats	185
S. T. Meller and B. J. Dennis	Efferent projections of the periaqueductal gray in the rabbit	191
L. C. L. Silveira and V. H. Perry	The topography of magnocellular projecting ganglion cells (M-ganglion cells) in the primate retina	217
K. V. Baev, V. B. Esipenko and Y. P. Shimansky	Afferent control of central pattern generators: experimental analysis of scratching in the decerebrate cat	239
G. N. Sholomenko, G. D. Funk and J. D. Steeves	Locomotor activities in the decerebrate bird without phasic afferent input	257
R. Vejsada, P. Hník, R. Navarrete, J. Paleček, T. Soukup, U. Borecka and R. Payne	Motor functions in rat hindlimb muscles following neonatal sciatic nerve crush	267
J. W. Dani, D. M. Armstrong and L. I. Benowitz	Mapping the development of the rat brain by GAP-43 immunocytochemistry	277
J. V. Bartolome, M. B. Bartolome, B. A. Lorber, S. J. Dileo and S. M. Schanberg	Effects of central administration of beta-endorphin on brain and liver DNA synthesis in preweanling rats	289
BOOK REVIEWS **P. Brodal**	*Neuroanatomical Tract-tracing Methods 2. Recent Progress.* Edited by L. Heimer and L. Záborszky	295
R. S. G. Jones	*The NMDA Receptor.* Edited by J. C. Watkins and G. L. Collinridge	295
EDITORIAL ANNOUNCEMENT		I

VOLUME 40 NUMBER 2

J. Chapman, G. Alroy, Z. Weiss, M. Faigon, J. Feldon and D. M. Michaelson	Anti-neuronal antibodies similar to those found in Alzheimer's disease induce memory dysfunction in rats	297
K. Zilles, G. Gross, A. Schleicher, S. Schildgen, A. Bauer, M. Bahro, G. Schwendemann, K. Zech and N. Kolassa	Regional and laminar distributions of α_1-adrenoceptors and their subtypes in human and rat hippocampus	307
M. Najimi, D. Jordan, F. Chigr, J. Champier, N. Kopp, A. Slama, J. Bertherat, C. Videau and J. Epelbaum	Regional distribution of somatostatin binding sites in the human hypothalamus: a quantitative autoradiographic study	321
M. Lafarga, M. T. Berciano, I. Suarez, C. F. Viadero, M. A. Andres and J. Berciano	Cytology and organization of reactive astroglia in human cerebellar cortex with severe loss of granule cells: a study on the ataxic form of Creutzfeldt–Jakob disease	337

C. Zimmer, S. Sampaolo, H. Shanker Sharma and **J. Cervós-Navarro**	Altered glial fibrillary acidic protein immunoreactivity in rat brain following chronic hypoxia	353
D. A. Lewis	Distribution of choline acetyltransferase-immunoreactive axons in monkey frontal cortex	363
A. Cobas, A. Fairén, G. Alvarez-Bolado and **M. P. Sánchez**	Prenatal development of the intrinsic neurons of the rat neocortex: a comparative study of the distribution of GABA-immunoreactive cells and the $GABA_A$ receptor	375
R. Araneda and **R. Andrade**	5-Hydroxytryptamine$_2$ and 5-hydroxytryptamine$_{1A}$ receptors mediate opposing responses on membrane excitability in rat association cortex	399
R. L. Jakab, F. Naftolin and **C. Leranth**	Convergent vasopressinergic and hippocampal input onto somatospiny neurons of the rat lateral septal area	413
Y. Kubota, S. Inagaki, S. Shimada, K. Takatsuji, M. Tohyama and **H. Takagi**	Striatal calcitonin gene-related peptide-like immunoreactive afferents from the regions ventral and medial to the medial geniculate nucleus of rats	423
G. Gopinath, A. K. Shetty and **P. N. Tandon**	Ageing changes in the transplants of fetal substantia nigra grafted to striatum of adult rat	429
T. Hama, Y. Kushima, M. Miyamoto, M. Kubota, N. Takei and **H. Hatanaka**	Interleukin-6 improves the survival of mesencephalic catecholaminergic and septal cholinergic neurons from postnatal, two-week-old rats in cultures	445
S. Blunt, P. Jenner and **C. D. Marsden**	The effect of chronic L-DOPA treatment on the recovery of motor function in 6-hydroxydopamine-lesioned rats receiving ventral mesencephalic grafts	453
J. P. Herman, D. N. Abrous and **M. Le Moal**	Anatomical and behavioral comparison of unilateral dopamine-rich grafts implanted into the striatum of neonatal and adult rats	465
K. D. Phelan and **W. M. Falls**	The spinotrigeminal pathway and its spatial relationship to the origin of trigeminospinal projections in the rat	477
K. D. Phelan and **W. M. Falls**	A comparison of the distribution and morphology of thalamic, cerebellar and spinal projection neurons in rat trigeminal nucleus interpolaris	497
R. J. Docherty, B. Robertson and **S. Bevan**	Capsaicin causes prolonged inhibition of voltage-activated calcium currents in adult rat dorsal root ganglion neurons in culture	513
J. M. Treherne and **M. L. J. Ashford**	The regional distribution of sulphonylurea binding sites in rat brain	523
S. Y. Sakurai, J.-H. J. Cha, J. B. Penney and **A. B. Young**	Regional distribution and properties of [^{3}H]MK-801 binding sites determined by quantitative autoradiography in rat brain	533
J. Soinila, O. Häppölä, N. Yanaihara and **S. Soinila**	Immunohistochemical localization of [Met^5]enkephalin and [Met^5]enkephalin-Arg^6-Gly^7-Leu^8 in sympathetic and parasympathetic neurons and nerve fibers projecting to the rat submandibular gland	545
T. M. Jeitner, P. E. Jarvie, M. Costa, J. A. P. Rostas and **P. R. Dunkley**	Protein phosphorylation in guinea-pig myenteric ganglia and brain: presence of calmodulin kinase II, protein kinase C and cyclic AMP kinase and characterization of major phosphoproteins	555

R. Robitaille and **J. P. Tremblay**	Non-uniform responses to Ca^{2+} along the frog neuromuscular junction: effects on the probability of spontaneous and evoked transmitter release	571
T. Gotow, K. Miyaguchi and **P. H. Hashimoto**	Cytoplasmic architecture of the axon terminal: filamentous strands specifically associated with synaptic vesicles	587

VOLUME 40 NUMBER 3

COMMENTARIES

R. Schmidt-Kastner and **T. F. Freund**	Selective vulnerability of the hippocampus in brain ischemia	599
B. E. Jones	Paradoxical sleep and its chemical/structural substrates in the brain	637

RESEARCH PAPERS

M. S. Lidow, P. S. Goldman-Rakic, D. W. Gallager and **P. Rakic**	Distribution of dopaminergic receptors in the primate cerebral cortex: quantitative autoradiographic analysis using [^{3}H]raclopride, [^{3}H]spiperone and [^{3}H]SCH23390	657
D. J. Tracey, S. De Biasi, K. Phend and **A. Rustioni**	Aspartate-like immunoreactivity in primary afferent neurons	673
S. Phelps, J. Mitchell and **H. V. Wheal**	Changes to synaptic ultrastructure in field CA1 of the rat hippocampus following intracerebroventricular injection of kainic acid	687
W. M. King and **J. T. Schmidt**	The long latency component of retinotectal transmission: enhancement by stimulation of nucleus isthmi or tectobulbar tract and block by nicotinic cholinergic antagonists	701
T. Sangruchi and **N. W. Kowall**	NADPH diaphorase histochemistry of the human hypothalamus	713
M.-F. Chesselet, C. Gonzales and **P. Levitt**	Heterogeneous distribution of the limbic system-associated membrane protein in the caudate nucleus and substantia nigra of the cat	725
G. J. Ter Horst, J. C. V. M. Copray, R. S. B. Liem and **J. D. Van Willigen**	Projections from the rostral parvocellular reticular formation to pontine and medullary nuclei in the rat: involvement in autonomic regulation and orofacial motor control	735
Y. T. Wang, R. S. Neuman and **D. Bieger**	Nicotinic cholinoceptor-mediated excitation in ambigual motoneurons of the rat	759
I. Tooyama, Y. Hara, O. Yasuhara, Y. Oomura, K. Sasaki, T. Muto, K. Suzuki, K. Hanai and **H. Kimura**	Production of antisera to acidic fibroblast growth factor and their application to immunohistochemical study in rat brain	769
K. R. Kaufman, K.-N. An, W. J. Litchy and **E. Y. S. Chao**	Physiological prediction of muscle forces—I. Theoretical formulation	781
K. R. Kaufman, K.-N. An, W. J. Litchy and **E. Y. S. Chao**	Physiological prediction of muscle forces—II. Application to isokinetic exercise	793

J. B. Cabot, A. Mennone, N. Bogan, J. Carroll, C. Evinger and **J. T. Erichsen**	Retrograde, trans-synaptic and transneuronal transport of Fragment C of tetanus toxin by sympathetic preganglionic neurons	805
G. Karmy, P. A. Carr, T. Yamamoto, S. H. P. Chan and **J. I. Nagy**	Cytochrome oxidase immunohistochemistry in rat brain and dorsal root ganglia: visualization of enzyme in neuronal perikarya and in parvalbumin-positive neurons	825
J.-L. Daval, M. C. Werck, A. Nehlig and **A. Pereira de Vasconcelos**	Quantitative autoradiographic study of the postnatal development of adenosine A_1 receptors and their coupling to G proteins in the rat brain	841
K. Braun, H. Scheich, C. W. Heizmann and **W. Hunziker**	Parvalbumin and calbindin-D28K immunoreactivity as developmental markers of auditory and vocal motor nuclei of the zebra finch	853
A. Nehlig, S. Boyet and **A. Pereira de Vasconcelos**	Autoradiographic measurement of local cerebral β-hydroxybutyrate uptake in the rat during postnatal development	871
K. Narita and **H. Kita**	Effects of divalent cations on the time course of post-tetanic decay of miniature endplate potential frequency in frogs	879
BOOK REVIEW **J. Slack**	*Topobiology: An Introduction to Molecular Embryology*. G. M. Edelman	885
